Summary

Software Engineer with 2+ years of experience in Full stack development in building scalable, responsive web applications using Angular and JavaScript. Skilled in UI/UX implementation and REST API integration. Proven ability to collaborate with cross-functional teams to deliver robust, high-performance solutions.

Professional Experience

Go Digit General Insurance

Bangalore, Karnataka

Software Engineer

July 2024 - Present

*** OTP Integration:** Implemented secure OTP-based authentication across the portal for authorization and login, reducing failures by **20%** and strengthening user trust in sensitive workflows.

***ABHA Integration:** Implemented Ayushman Bharat Health Account services with secure authentication and **100% compliance** to government health standards; reduced sensitive data exposure by **40%** using custom pipes and encryption.

***Bulk IMD Movement:** Automated bulk file uploads, reducing manual effort by **49%** and streamlining IMD movement workflows for faster processing.

***Co-Payment Module:** Developed health module add-on enabling **50% insurer co-pay handling**, ensuring accurate deductible logic and compliance with policy rules.

***Angular Upgrade:** Upgraded production apps from Angular v14 → v18 with latest CLI tools, HTML5, CSS, Bootstrap, and Figma, while enhancing cross-device responsiveness using CSS Media Queries — achieving **100% backward compatibility**, **30% developer productivity boost**, and **25% higher mobile engagement across 20+ device types**.

PROJECTS AND CERTIFICATIONS

***Disease Prediction System :** Built AI/ML-based web app for disease prediction (93% accuracy) with doctor search and dynamic visualization. **Tech Stack:** JavaScript, HTML, CSS, Angular, GitHub Dec 2023

***Book Store App :** Developed online bookstore with cart, Wishlist, order placement, reviews, and rating filters. **Tech Stack:** Angular, JavaScript, HTML/SCSS, PostgreSQL, Material-UI Jul 2024

***Participated in the Tech & Innovation Fair conducted by IIT Madras, showcasing emerging technologies and innovative student-led projects.** Jan 2024

Technical Proficiencies

Languages: JavaScript, Typescript, HTML/ CSS, Bootstrap, SQL ,Java

Frameworks : Angular , AngularJS

Developer Tools: Visual Studio Code, GITHUB, Bitbucket, Postman, PostgreSQL

Relevant Coursework: DSA, object-oriented program, Operating System, DBMS,

Education

Presidency University

Bangalore 2020-2024

Bachelor of Technology (Major in Computer Science and Engineering)

CGPA: 8.53
